Interior Designers Drapery Bedspread & Canopy Sketchfile

Presents a collection of 371 designs for draperies, canopies, & bedspreads that can be used as a designers working tool, catalog, or idea book. With it, the designer can effectively display a selection of solutions for window & bed treatments to a client without drawing dozens of preliminary designs. Tracings from the book can even be sent directly to the workroom. Sketches are annotated only where necessary to explain the design or suggest a certain material. Designers will find the index particularly useful. There, each sketch appears in miniature, page-referenced for easy retrieval.
