Free Preview I was past the point of speaking let alone adult rationalization. For the first time since my mothers death I found myself wanting to feel something. But not just anything. I wanted to feel him. I pushed up on his shirt and placed my palms flush against his tattooed chest. I wanted to explore him but more importantly, I wanted him to explore me. He didnt skip a beat. Before I could string together a coherent set of words, he brushed his tongue along the cusp of my neck and over the patch of exposed flesh just above the collar of my dress. I gasped at the sensation but he brought a finger to my mouth to silence me. Shh, he urged, his breath hot against my ear. I obeyed, allowing him to push his hands up my legs and beneath my dress. I held back another moan as he came into contact with the soft fabric of my cotton panties, which were damp from my excitement. Do you want this? he questioned, but his tone said something else entirely. He seemed to know that the ball was in his court. It was obvious that he was past the point of no return. One way or another he was going to have his way with me. Yes, I whispered, feeling a soft moan escape the corners of my mouth. The reality that we could be caught at any moment only served to increase my arousal. I allowed Axel to slide my juice soaked panties down my legs, lifting my ass off the ground to help him. When they were off he inhaled a deep breath and I watched in an erotic haze as his tongue darted over my labia. Fuck, he

groaned. You...you smell like her. It might have been too much information but being compared to a woman who exuded sex appeal caused a sticky stream of juices to flow down my thighs. A stream of air left my mouth as Axels fingers darted against my womanhood, brushing over the swollen bud of my clit. He rubbed it like a pro, using the pad of his thumb and sliding his index finger inside my tight slit. It was almost too much for me to handle. Oh god, I moaned. I mightI think I might cum But Axel shook his head, licking my juices from his lips. Not yet, he whispered, his warm breath grazing my inner thighs. Wait until I say baby.
