

Cria (Jungle Heat Book 1)

From the NYT and USA Today bestselling author of the Kyron Pack series comes a story about how shifters living in the Amazon rainforest defend their home from developers and find love in the process. Note: This is a stand-alone novel set in the Jungle Heat world. Deep in the heart of the Amazon Jungle, an ancient breeding race begins. Ever since she was jilted by her lover, Aleta had been subjected to humiliation by her Jaguarundi tribe. Not anymore. She is determined to emerge from her final Cria unmated, and finally be free of tribal traditions and her overbearing father. Aleta has plans -- bigger plans than her father's desire to see her marked by some oafish warrior in an outdated breeding competition. After the Cria shell move to the city and start fresh, leaving her clan -- and her broken heart -- behind. Unfortunately, the past is unwilling to let her go. Forced to abandon Aleta when he went into exile, Luiz knows that this Cria will be his last chance to reclaim what is rightfully his. When a surprise encounter doesn't go exactly as planned, he realizes it will take more than a little seduction for Aleta to forgive the sins of the past. The race is on, and the battle of wills has begun. Everyone knows that in the Cria anything can happen, and with the stakes this high, all bets are off. Cria is a tale riddled with vivid encounters as well as a world formed in such crisp description that Amazon heat beads on your skin. ~ Virginia at Coffee Time Romance Ms. Rock has her own unique way to put a spin on this that will have the reader rooting for the heroine. ~Dee at The Romance Studio Suzanne Rock is one author that does a great job of steaming up pages without a forced feeling. ~ Von from Dark Diva Reviews Ms Rock has a flair for balancing the explicit sex scenes with the conflict the characters must face, and I was rooting for the couple all the way. ~Finn from Got Romance Reviews The writing was so

vivid that I felt that I was right there with Aleta and Luiz in both their feelings of betrayal and misunderstandings. The chemistry between them is palpable. ~ Eaim from Night Owl Romance
