

## Enthralled by the Vampire (Vampire Mind Control Erotica)

Grace Palmer is a vampire hunter of renown and she's finally chased down her most dangerous quarry. As she heads towards her final engagement with her powerful enemy, she doesn't realise the true danger she faces: it's not the vampire's bite she should be worried about but his mesmeric power and ability to dominate her mind. Warning: This is an erotic adult's only short story of over 4500 words containing mind control, vampire hypnosis, domination, submission and graphic sexual content.

Excerpt: Delicious, he murmured against her skin. I shall make a new pet of you, Grace. You will serve my needs, and I shall let you live. It is a fair exchange, is it not? She could do nothing but agree. Yes, she said, her voice low, the desire to serve him growing within her, the need for him to be pleased with her. Yes, she said again, more certain. Good, he said and she felt sharp fangs graze her neck. A moment later, he bit. The pain was excruciating, but only for a second. Then came the strange new pleasure, the warmth that flowed through her body causing her to moan and writhe as he held her, sucking at her neck, feasting on her blood. She reveled in the feeling, knowing that he was using her to satiate his appetite. When he was done he used one hand to tilt her head up to look at him. She gazed back, her eyes wide, eager to feel the touch of him in her mind and eager to obey. So much better now, aren't you? Compliant and submissive. Just as a human should be. His eyes narrowed in satisfaction. You know your place now, don't you?

This essay follows the vampires from their origins to their modern selves and their extreme. It is about vampires that makes the human race so enthralled with them. In most media the vampires are depicted as extremely sensual and erotic.
