

# Exploring Getting Started with Web Browsers (Exploring for Office 2013)

Ideal for students and individuals seeking an introduction to online essentials using Internet Explorer 10.

The Exploring series charts readers beyond the point and click, helping them understand WHY they use Microsoft Office skills along with HOW they perform them. The latest edition provides an easy-to-follow map through each chapter to help readers learn, study, and review efficiently and be successful in this class and beyond. The entire approach allows students to map their way quickly and easily through the book, focusing on the key objectives, and using their own efficient study habits as a model for success.
