

The Linux Web Server CD Bookshelf Version 2.0

Open source innovation has given rise to many valuable tools and technologies, including some of the most powerful and popular web development tools available. LAMP technologies (that is, Linux-Apache-MySQL-Perl/PHP/Python) provide a great application development platform, especially for robust web applications that run on Linux servers. Solid, reliable, and affordable, its no wonder that LAMP is the platform of choice for web development. For years, O'Reilly's bestselling LAMP books have helped programmers master the finer points of these open source tools. Now we're offering six top titles on one CD to give programmers the tools they need to develop their own systems and get started with open source web development using LAMP technologies. The Linux Web Server CD Bookshelf, 2nd Edition, delivers more than 3,600 pages of easily searchable information in a convenient format accessible from any web browser. You'll find the latest editions of these books: Linux in a Nutshell, 4th edition Running Linux, 4th edition Apache: The Definitive Guide, 3rd edition Programming PHP Managing & Using MySQL, 2nd edition Practical mod_perl As a bonus, the paperback version of Linux in a Nutshell, 4th Edition, is included as well.
